| Casehardening Indicator:                |
|---|
| Not casehardened                        |
| Outside Diameter:                       |
| Between 0.349 inches and 0.351 inches   |
| Metallic Hardness Rating:               |
| 42.0 rockwell c and 50.0 rockwell c     |
| Face Width:                             |
| Between 0.209 inches and 0.215 inches   |
| Bore Inside Diameter:                   |
| Between 0.1258 inches and 0.1263 inches |
| Chamfer/radius Of Outside Corner:       |
| 0.03 in. Radius                         |
| Material:                               |
| Steel, ams5616                          |
| Material:                               |
| Steel, ams5616                          |
| Style Designator:                       |
| Plain                                   |
| Surface Treatment:                      |
| Passivated                              |
| Fsc Application Data:                   |
| Engine fuel system, aircraft            |
| Shelf Life:                             |
| N/a                                     |
| Unit Of Measure:                        |
|   |
| Demilitarization:                       |
| No                                      |
| Fiig:                                   |
