Casehardening Indicator:

Casehardened

Counterbore Diameter:

0.7180 inches

Counterbore Depth:

0.0625 inches

Outside Diameter:

Between 0.8740 inches and 0.8750 inches

Metallic Hardness Rating:

50.0 rockwell c and 54.0 rockwell c

Face Width:

Between 0.3290 inches and 0.3390 inches

Bore Inside Diameter:

Between 0.5000 inches and 0.5003 inches

Special Features:

Outside diameter on end opposite counterbore relieved to 0.812 in. Min 0.813 in. Max, 0.016 in. Wide

Material:

Steel, grade 4145 or steel, astm a 304, grade 4145

Material:

Steel, grade 4145 or steel, astm a 304, grade 4145

Style Designator:

Plain, counterbored

Surface Treatment:

Phosphate, mil-p-16232, type m

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T267-k
