Hole Diameter:

0.3438 inches first

Overall Length:

3.6250 inches

Body Inside Diameter:

2.2520 inches

Lubricant Accommodation Style:

Grooved circular

Antirotation/lubrication Type And Quantity:

1 hole

Surface Groove Location And Quantity:

3 internal

Material:

Tin alloy inner layer

Material Specification:

Qq-c-390 federal specification single material response outer layer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A045a0
