Functional Description:

Drag brace assembly bushing, nose landing gear

Material:

Copper alloy 630

Material Specification:

Ams 4640 assn standard single material response

Reference Data And Literature:

T.O.1f-16a-4-32 figure 11 and t.O.4s2-80-13

Style Designator:

22c solid, external flange one end

Type/model Designation:

F-16a/b

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A045a0
