Width:

Between 1.7480 inches and 1.7500 inches

Outside Diameter:

Between 1.9995 inches and 2.0005 inches

End Application:

Part number 11450160

Static Radial Load Rating:

356000 pounds

Lubrication Feature:

Groove outer ring

Special Features:

Ball has chrome finish; 6 degrees angular misalignment; outside dia. 3.1865 in. Min. And 3.1875 in. Max.

Material:

Steel inner member

Surface Treatment:

Passivate outer ring

Style Designator:

Plain bearing, outer ring without insert and/or liner

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
