**Width:**

Between 1.7480 inches and 1.7500 inches

**Outside Diameter:**

Between 1.9995 inches and 2.0005 inches

**End Application:**

Part number 11450160

**Static Radial Load Rating:**

356000 pounds

**Lubrication Feature:**

Groove outer ring

**Special Features:**

Ball has chrome finish; 6 degrees angular misalignment; outside dia. 3.1865 in. Min. And 3.1875 in. Max.

**Material:**

Steel inner member

**Surface Treatment:**

Passivate outer ring

**Style Designator:**

Plain bearing, outer ring without insert and/or liner

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A045a0
