End Application:

Filters; nuclear reactor boundry area

Corner Shape:

Chamfered all corners

Surface Finish:

125.0 microinches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 federal specification single material response

Style Designator:

17d half sleeve, plain, no outside flanges

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A045a0
