Overall Length:

3.0620 inches

Body Inside Diameter:

3.5000 inches

End Application:

Cylinder assembly, hydraulic

Spherical Body Diameter:

5.5000 inches

Corner Shape:

Square all corners

Special Features:

Nitrile rubber double lip seal, both sides; angle of tilt 6 degrees

Material:

Steel

Style Designator:

Solid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A045a0
