**General Description:**

Gsteel, ams6322 or ams6323 or ams6324 o/a, black oxide, ams2485 o/a, rockwell hardness c scale 44 to 48, dim., 0.850 in. Hole diameter left internal flange, 1.0237 in. Min, 1.0247 in. Maximum id body, 1.129 in. Min, 1.130 in. Maxod body, 0.060 in. Min, 0.062 in. Maximum w left internal flange, 0.375 in. Lgo/a, outside left corner chamfered 0.040 in., 45 degrees angle, drilled hole 0.155 in. From right end surface of body, 0.064 in. Min, 0.071 in. Maximum dia on 15 degrees angle, id and od surface of body concentric within 0.001 in. Tir, id body and right end surface of left internal flange sq within 0.001 in. Tir, id and od surface of body and right end surface of left internal flange 32 microinches aa, magnetic particle inspection per eis1000 fscm 73342

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
