Flange Thickness:

0.0430 inches

Bore Diameter:

Between 0.0978 inches and 0.0988 inches

Overall Outside Diameter:

0.4850 inches

Assemblylength:

0.3010 inches

Shaft End Type:

Open

Lubrication Material:

Grease

Lubrication Material Specification:

Anderol I-278, fscm 96590 mfr ref single material response

Material:

Stainless steel

Special Test Features:

Supersonically clean

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A093a0
