Mounting Hole Diameter:

Between 0.313 inches and 0.319 inches

Bore Diameter:

Between 7.0000 inches and 7.0001 inches

Mounting Hole Type:

Round, unthreaded

Special Features:

Precipitation harden heat treat per mil-h-6875, class d, to h 935, 170ksi, apply before machining; used on lantirn navigation pod

Surface Treatment:

Passivate

Surface Treatment Specification:

Qq-p-35, type ii federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A093a0
