Mounting Hole Diameter:

0.5000 inches

Bore Diameter:

1.3750 inches

Base Thickness:

0.6562 inches

Center To Center Distance Between Mounting Holes Along Width:

Between 4.6250 inches and 5.3750 inches

Housing Height:

3.6250 inches

Housing Width:

6.7500 inches

Lubrication Fitting Type:

Wick

Base Length:

1.7500 inches

Rolling Element Groove Quantity:

1

Alignment Type:

Rigid

Internal Fit-up Designation:

Standard

Assemblylength:

1.6875 inches

Block Type:

Fixed

Load Capability Type:

Radial

Height From Bottom Of Base To Bore Centerline:

1.8125 inches

Rotating Element Locking Method:

Direct

Mounting Hole Type:

Round, unthreaded

Material:

Iron malleable

Style Designator:

Pillow block, solid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A093a0
