General Description:

2shp spindle drive motor, 5000 lbs continuous thrust 10000lbs short duration, 0.10hp per rpm torque capability, no. 50 taper spindle with single key drive, taper roller bearing support of spindle, automatic spindle orientation, hydromechanical power drawbar, speedselection in a standard range of 15 to3000rpm, unidirectional slide positioning accuracy to porm 0.0005in.In any 4 ft of travel, repeatability is porm 0.0003in., has full contouring 150 degrees tilting spindle carrier, rotational feed rate is 2 to 900 degrees per minute with rapid rate of 1800, any one or allfive axes can be programmedfor independent or simultaneous operation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
