End Application:

Wasp class lhd

Special Features:

All castings are precision machined iron; 3 linear movements are achieved through rack and pinion; disintegrating head can be rotated 360 deg.; calibrated in deg.; 12 cutting speeds; primary input 230, 380, 415, 460 voltage, single phase, 60 hertz; secondary input 3-30 volts; power pack is 1 complete subassembly; head spindle is hardened and ground to 0.0002 tolerance; pump and motor are 1 complete assembly; 1/2 hp motor, 1750 rpm, progressing cavity; recirculating system 8 gpm, pressure 75 psi; magnetic filter system; coolant tank, 50 gal.; precision hard chromated cutting head; material: cast iron
