Wattage Rating:

10.000 watts

Voltage In Volts And Current Type:

110.0 ac

Product Name:

10 watt laser system

Special Features:

Air cooled laser diode source, used to excite yag crystal to mark text, logos, & designs on metals, plastics, and other surfaces. Marking field 4.3 in x 4.3 in; working distance 6.9 in min to 17.00 in max; benchtop safety enclosure with interlocking door and viewing window; manual z axis scanhead height adjustment, focus finder laser beam 635 nm class iiiia

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
