Mounting Type:

Floor

Current Type:

Ac

Center To Center Distance:

30.000 inches

Performance Type:

Standard duty

Purpose For Which Designed:

General

Design Type:

Plain

Electric Motor Horsepower Rating:

7.500

Bed Type:

Solid

Rated Swing:

16.000 inches

Swing Over Cross Slide:

8.500 inches

Hollow Spindle Hole Size:

2.310 inches

Carriage Longitudinal Feed Operation Method:

Hand and power

Carriage Cross Feed Operation Method:

Hand and power

Product Name:

Lathe, cnc, toolroom

Voltage In Volts:

240.0

Phase:

Single or three

Special Features:

Head stock drive type direct pulley; variable spindle speed; spindle nose a2-5; maximum spindle speed 1800 rpm

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T221-b
