General Description:

Shelf Life:

No

Vertical spindle, bed type, 3 axes, numerical controlled, 40 in. Table width, 120 in; table travel, 220/440v, 3 phase, 60 hertz, w/flood coolant system, 3 axis command readouts, sequence number readout, circular interpolation, parabolic interpolation, and lutter diameter compensation

Reference Number Differentiating Characteristics:

As differentiated by technical characteristics

N/a	
Unit Of Measure:	
Demilitarization:
