General Description:

3floor type; ram data, 12 in. Stroke lg, 22 in. Vertical adjustment, 0 to 10 degrees angular adjustment; hydraulically operated; table data, rotary type, 28 in. Dia, 26 in. Horizontal travel, 26 in. Transverse travel; 31 in. Maximum distance from end of ram to table top; 24 in. Distance from lower end of ram bearing to table top; 7 in. Distance from column face to tool post seat; main drive power data, elec motor drive, electric motor data, 1, 10 hp, ac, 220/440v, 60 hertz, 3 phase, nonsuppressed for radio interference

Reference Number Differentiating Characteristics:

Main drive power data

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
