Mounting Type:

Floor

Current Type:

Ac

Frequency Rating:

60.0 hertz

Maximum Operating Temp:

1200.0 degrees fahrenheit

Operating Temperature Range:

+850.0/+1100.0 degrees fahrenheit

Accessory Components And Quantity:

Mobile tank for water quenchant, load car; furnace hoist w/load bar for atch load rack, one rack 4'wd by 4'ht by 8'lg

Design Type:

Convection car

Wattage Rating In Kilowatts:

190.0

Door/opening Location And Quantity:

Doors in bottom, 2

Access Operation Method:

Mechanically operated door

Voltage In Volts:

480.0

Phase:

Three

Special Features:

Heat load 2000 lbs aluminum plus 1000 lbs of stainless steel rack; aluminum drop bottom furnace; heated convection solution heat treating; automatic opening doors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T345-g
