Mounting Type:

Floor

Current Type:

Ac

Frequency Rating:

60.0 hertz

Maximum Operating Temp:

2250.0 degrees fahrenheit

Design Type:

Direct fired oven

Tempurature Control Device Type:

Manual

Door/opening Location And Quantity:

2

Product Name:

Dual furnace

Voltage In Volts:

440.0

Phase:

Three

Special Features:

Dual chamber furnace with separate controls; thermocoupler type k; maximum temperature upper overn: 2250 degrees f; lower oven 1250 degrees f; this unit has optional high limit controls

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T345-g
