Criticality Code Justification:

Zzy

General Description:

Material is corrosive resistant steel, outside diameter is 10.62", insidediameter is 8.50", cross sectional dimension is 2.00"

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
