Mounting Type:

Wheel

Wheel Quantity:

4

Tire Type:

Pneumatic

Output Current Rating In Amps:

200.0

Special Features:

Single phase; 50/60 hz; 200 amp; dc rectifiers; 28 volts; wire feeder mounted on machine, not built in; handles .024 in. Through .068 in. Wire; high, low, shrink/noodle voltage ranges; line voltage 200/230/460/575 rating; 25.5 in lg by 13.5 in. Wd by 20.0 in. Ht; 180 lbs; gas metal, flux cored with gas, flux cored without gas, and consumable mig spot welding processes; c/o power source, timer, bottle rack, 10 ft power cord, nozzle, carbon shrink kit, stud welding kit, o-ring kit, spot nozzle, clamp, spacer kit, accessory kit, feed rolls, gun liners, gun tips, gun nozzles, gun tip adapters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T345-a
