Welding Process For Which Designed:

Inert gas tungsten arc

Voltage In Volts:

460.0

Phase:

Three

Special Features:

Portable; width 12 in.; length 20 in.; height 18.5 in.; weight 79 lbs; 250 amps/30 volts at 40 duty cycle; 300 amps/32 volts at 20 duty cycle; used for gas tungsten arc welding and shielded metal arc welding

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T345-a
