Special Features:

24 vac; 50/60 hz; wire speed 50 to 780 i/pm; peak current range 100 to 600 amp; pulse width 1 to 5 millisec; lgth 26.500 in; width 14.000 in; ht 14.000 in; accomodated electrode wire diameter 0.023 in; for pulse and mig welders; hi torque permanent mag motor; micro processor based control; 360 degrees turning radius; semi automatic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T345-a
