Mounting Type:

Base

Current Type:

Ac

Output Current Rating In Amps:

Between 5.0 and 600.0

Design Type:

Generator

Power Source:

Any acceptable

Arc Current Type:

Dc

Minimum Current At Specificationified Voltage:

5amps at 10v

Maximum Current At Specificationified Voltage:

600amps at 38v

Operator Type For Which Designed:

Single

Remote Control Design:

Not included

Auxiliary Power Output Design:

Not included

Voltage In Volts:

230.0 or 460.0

Phase:

Three

Special Features:

Height: 17in; width: 14 1/2in; depth: 26in

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T345-a
