Mounting Type:

Base

Output Current Rating In Amps:

375.0

Design Type:

Rectifier

Unpackaged Unit Weight:

507.000 pounds

Arc Current Type:

Ac or dc

Minimum Current At Specificationified Voltage:

230

Maximum Current At Specificationified Voltage:

460

Operator Type For Which Designed:

Single

Remote Control Design:

Not included

Auxiliary Power Output Design:

Not included

Product Name:

Precision tig 375

Special Features:

Dims of welder is 31 x 22 x 26 inch; pull chart is separate option

Type/model Designation:

Tig 375

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T345-a
