Overall Length:

126.000 inches

Overall Width:

51.000 inches

Current Type:

Ac or dc

Accessory Components:

Clamp and blowpipe holder and gas hose and work support and power cable

Voltage Rating:

Between 110.0 volts and 120.0 volts

Gas Type:

Acetylene

Cutting Speed Range:

+1.500/+75.000 inches per minute

Cutting Length:

60.000 inches

Phase:

Single

Special Features:

Gcutting equip w/ tracing table; cutting area 60 in. Lg of 1 track sect; hand tracer and magnetic tracer; template clamp (varing qty) , acetylene hose, oxygen hose; mtr operated 0.333 hp variable speed

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A516p0
