General Description:

Dimensions width 26 in, height 24 in, depth 36 in; input power 3-phase, 50/60 hz., 208/230/460 volts; 55/50/25 amperes; control circuit 24 volt; output 100amperes dc straight polarity output current continuously variable between 50and 100 amperes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
