Specific Use:

General purpose

Size Designator:

8

Usage Design:

Manual

Attachment Method:

Thread

Preheat Orifice Shape And Quantity:

6 round

Special Features:

Propylene gas fuel type

Functional Description:

Multi-flame heating

Fuel Type:

Acetylene

Material:

Copper

Material:

Copper alloy

Style Designator:

One piece

Type/model Designation:

Mfa

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T345-f
