Width:

0.250 inches

Thickness:

0.030 inches

Flux Feature:

Not included

Physical Form:

Strip

Chemical Composition Percentage:

Silver 51; cadmium 19; zinc 18.5; copper 16.5

Criticality Code Justification:

Feat

Special Features:

2.22 ft per troy ounce

Precious Material And Location:

Integral silver

Precious Material And Weight:

0.510 silver ounces, troy

Precious Material:

Silver

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T166-b
