Width:

3.000 inches

Thickness:

0.020 inches

Flux Feature:

Not included

Physical Form:

Strip

Chemical Composition Percentage:

Silver 66; copper 21; zinc 17; others 0.15

Criticality Code Justification:

Abnm and abgl

Special Features:

0.27 ft per troy ounce

Precious Material And Location:

Integral silver

Precious Material And Weight:

0.660 silver ounces, troy

Precious Material:

Silver

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T166-b
