Diameter:

2.000 inches

Thickness:

0.223 inches

Physical Form:

Ring

Chemical Composition Percentage:

Tin 96; silver 4

Special Features:

1-1/2 in. Id ring; 450 degrees melting point

Precious Material And Location:

Integral silver

Precious Material And Weight:

0.040 silver ounces, troy

Precious Material:

Silver

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T166-c
