Diameter:

0.036 inches

Physical Form:

Wire

Chemical Composition Percentage:

Lead 63.0; tin 37.0

Content Within Each Unit Package:

1 lb

Wire Core Type:

Rosin

Special Features:

5 cores

Reference Number Differentiating Characteristics:

As differentiated by chemical composition percentage, wire core type, content within each unit package and unit package type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T166-c
