**Diameter:**

0.036 inches

**Physical Form:**

Wire

**Chemical Composition Percentage:**

Lead 63.0; tin 37.0

**Content Within Each Unit Package:**

1 lb

**Wire Core Type:**

Rosin

**Special Features:**

5 cores

**Reference Number Differentiating Characteristics:**

As differentiated by chemical composition percentage, wire core type, content within each unit package and unit package type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T166-c
