| Outside Diameter:                              |
|--|
| 0.125 inches                                   |
| Length:  |
| 14.000 inches                                  |
| Current Type:                                  |
| Ac or dc                                       |
| Physical Form:                                 |
| Straight                                       |
| Quantity Within Each Unit Package:             |
| 5.0 pounds                                     |
| Weld Position For Which Designed:              |
| All positions                                  |
| Polarity Characteristic:                       |
| Reverse  |
| Flux Coating Type:                             |
| Shielded arc                                   |
| Material:                                      |
| Stainless steel filler                         |
| Material Specification:                        |
| 680cgs mfr ref single material response filler |
| Unit Package Type:                             |
| Вох  |
| Shape:   |
| Round  |
| Shelf Life:                                    |
| N/a  |
| Unit Of Measure:                               |
|  |
| Demilitarization:                              |
| No   |
| Fiig:  |
