Environmental Protection:

Any acceptable

Basic Material:

Nickel

Content Within Each Unit Package:

5 lbs

Special Features:

This nsn is used for the purchase of 60 and above containers. H purity nickel powder; produces coatings which are hard, dense and readily machinable; it is recommended for salvage and buildup of nickel and nickel alloy parts; metco 56c-ns powder is coarser than metco 56f-ns, which permits greater coating thickness to be obtained; can be sprayed with metco thermospray equipment or metco plasma flame spray equipment; certification: rr9513

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T166-s
