Diameter:

Between 1.958 inches and 1.968 inches

Thickness:

Between 0.215 inches and 0.223 inches

Physical Form:

Ring

Chemical Composition Percentage:

8.6 - 8.9 zinc, .05 maximum impurities, remainder - tin

Special Features:

Items used for safety purposes, as a thermo disconnect inside transmission, csd (constand speed drive, p/n 711596), drives generator that provides electric power for f-15; ms26.01

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T166-c
