Body Style:

Round

Tip Diameter:

1.2 millimeters

Overall Length:

9.9 millimeters

Tempurature Rating:

400.0 degrees celsius

End Application:

Used on metcal sp200 soldering system

Tip Type:

Straight

Integral Heating Element:

Not included

Special Features:

30 degree chisel; good for medium to light through-hole and general surface mount touch up

Material:

Copper

Material:

Copper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T166-q
