Gold Brazing Alloy - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3439-01-476-3897

Width:

0.015 inches

Thickness:

0.001 inches

Length:

1200.000 inches

End Application:

Solder/welding applications

Physical Form:

Ribbon

Special Features:

Ribbon shall be annealed 205 nickel, gold plated, composition of gold shall be 99.99%; gold plating thickness 100-120 micro in.

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

T166-b
