Environmental Protection:

Any acceptable

Basic Material:

Alumina

Content Within Each Unit Package:

5.0lbs

Special Features:

Nsn is used to purchase a of 60 containers and up; 99.5 al o, angular/blocky fused and crushed, -31 +3.9 um; rc 65-66 hardness; texture/finish as sprayed 50-200 ground 15-20 brushed 15-160 lapped 1-4; coating numbers p105sfp-10, p105sfp-12, p105sfp-13 and p105sfp-15; has highest dielectric strength of all aluminum oxide coatings.Excellent refractory properties. Superfine white alumina.Produces harder, denser coatings having greater low-temperature wear resistance. Greatest wear resistance of the oxide ceramics. Easily finished to various surface textures and friction characteristics needed in the textile industry

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T166-s
