Environmental Protection:

Any acceptable

Basic Material:

Steel, corrosion resisting and nickel-chromium alloy

Content Within Each Unit Package:

5.0lbs

Special Features:

Nsn is used to purchase a of 20containers to a of 59 containers; fe 17cr 12ni 2.5mo 1si 0.1c, aisi type 316 stainless steel, water atomized; -106+45 um (-140+325 mesh); certification msrr 9507/26; coating numbers p41c-11 and t41c-11; rb 88-92 hardness; texture/finish, machine very good; premium type 316 stainless alloy. Produces dense, work hardenable coatings useful for build-up and repair where corrosion resistance is needed and where finishing must be done by machining. Recommended for cavitation and low temperature erosion resistance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T166-s
