Environmental Protection:

Any acceptable

Basic Material:

Nickel-chromium alloy and steel, corrosion resisting

Content Within Each Unit Package:

5.0lbs

Special Features:

Nsn is used to purchase a of 1 container to a of 19 containers; ni 16cr 8fe water atomized; rb 80 hardness; -106+45 um (-140+325 mesh); texture/finish as-sprayed 700-1000, machined 50-70; coating number t44-11; nickel base chromium stainless alloy. Produces bright, clean, machinable coatings that are work hardenable and have good wear and corrosion resistance. Useful for salvage and build-up applications on sstl, nickel or nickel alloy substrates where high hardness is not required

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
