**Environmental Protection:**

Any acceptable

**Basic Material:**

Nickel-chromium alloy and steel, corrosion resisting

**Content Within Each Unit Package:**

5.0lbs

**Special Features:**

Nsn is used to purchase a of 20containers to a of 59 containers; ni 16cr 8fe water atomized; rb 80 hardness; -106+45 um (-140+325 mesh); texture/finish as-sprayed 700-1000, machined 50-70; coating number t44-11; nickel base chromium stainless alloy. Produces bright, clean, machinable coatings that are work hardenable and have good wear and corrosion resistance. Useful for salvage and build-up applications on sstl, nickel or nickel alloy substrates where high hardness is not required

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T166-s
