**End Application:**

Navy code llhp7a001

**Physical Form:**

Wire

**Chemical Composition Percentage:**

Tin

**Wire Core Type:**

Solid

**Product Name:**

Solder, electronic (96 to 485 degrees c)

**Special Features:**

Low residue flux; plastic core w/2 percent flux

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T166-c
