Current Type:

Dc

Physical Form:

Coil

Filler Metal Chemical Composition In Percent:

1.40 nickel second element

Criticality Code Justification:

Zzzx

Special Features:

100s-2 hy-80 or hy100 steel in accordance with mil-s-16216 or hsla-80 orhsla-100 in accordance with mil-s-24645 when specified

Material:

Steel

Shape:

Round

Departure From Cited Designator:

Material controlled iaw navsea 0948-lp-045-7010 material control standard for level 1 items

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A283a0
