NSN 3439-01-600-3026

Welding Electrode - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3439-01-600-3026

Current Type:
Dc
Physical Form:
Coil
Filler Metal Chemical Composition In Percent:
1.40 nickel second element
Criticality Code Justification:
Zzzx
Special Features:
100s-2 hy-80 or hy100 steel in accordance with mil-s-16216 or hsla-80 orhsla-100 in accordance with mil-s-24645 when specified
Material:
Steel
Shape:
Round
Departure From Cited Designator:
Material controlled iaw navsea 0948-lp-045-7010 material control standard for level 1 items
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Filg:
A283a0
