Current Type:

Ac

Operation Method:

Power

Power Source:

Electric motor

Power Unit:

Included

Voltage In Volts:

220.0 and 440.0

Phase:

Three

Special Features:

Emergency stop treadles or cable; machine control provided through low voltage push buttons or foot pedals

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T337-a
