Mounting Type:

Floor

Design Type:

Beading

Operation Method:

Hand

Mechanical Drive Type:

Direct

Unable To Decode:

24.000 inches

Roll Quantity/type/size/capacity:

Capacity of 18ga mild steel and 16ga aluminum

Product Name:

Baileigh manual bead roller

Special Features:

Item construction is heavy steel framework that is electro welded for further rigidity and a heavily constructed floor stand that includes a die rack; shipping dims are 45" x 26" x 13"

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T337-a
