Current Type:

Ac

Frame Type:

C

Power Unit Type:

Electric motor

Design Type:

Hydraulic

Pressure Capacity:

6.000 tons

Power Unit:

Included

Maximum Height Over Working Surface:

13.000 inches bed

Ram Travel Distance:

Between 1.000 inches and 3.000 inches

Phase:

Single

Special Features:

Includes basic machine and equip rqr'd for akh setup with automation to insert the akh fastener; 13.6 amps; hyd rsvr cap. 1 gal.; pump cap. 1 gal. Per minute; throat dp 18 in. Horiz and 13 in. Vertical; handles fasteners up to a maximum 3/8 in. Thread size for nuts and studs size number 3 to 1/4 in diameter in metallic or non-metallic matls; these are rivets, studs, fixed and floating nuts, panel fasteners, self-locking nuts, stand-offs, spacers, eyelets and more standard tooling

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T317-h
