Overall Length:

109.000 inches

Overall Height:

71.000 inches

Overall Width:

67.000 inches

Special Features:

Hydro mechanical shear; welded all-steel frame; full length hardened slides; non-metallic ways; variable cut length; ram tension adjustment; blade clearance adjustment; inch and millimeter back gauge: 1/128 inch , 2mm resolution, 36inch range., powered; squaring arm inch/mm scale; work support arms 22 inch long; four-edge blades, high chrome high carbon; vickers high-speed overload protected hydraulic drive; 120v controls; cycle mode selector jog, continuous, single; foot switch remote control; and ram up push button

Material:

Steel

General Description:

Jfull electrics with motor, overload protected magnetic starter, circuit breaker. Individual hydraulic hold downs with replaceable polyurathane feet automatically adjust hold down force with thickness bebing cut

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
